

# BILL CLARK

Williamsburg, VA, originally from  
Washington, DC

Wife: ANN

Occupation: Retired Engineer

Hobbies: Golf, Tennis, boating

Children: Bruce, Joy, Scott

Grandchildren: grandsons-6

Great Granddaughter -1

Having been retired now for 20 years, I look back on my CG days as extremely satisfying. I found each assignment to be unique, exciting, and rewarding. I can't think of any other career that I would have wanted to follow.

My civilian career started in New Orleans where I worked for a large privately owned architectural-engineering firm, with offices about the Gulf South and overseas, as the Human Resources Director. After ten years and being fully vested in their retirement program, I hung it up for good. New Orleans was a great place to live; Ann and I enjoyed many social and political activities there.

In retirement, however, we wanted a quieter life so we chose Williamsburg, not far from where Ann was born. We built a home with a great golf course view so we enjoy the big back yard without doing the lawn maintenance. Our community also has a Yacht Club/Marina for 95 boats; I was the Commodore for three years and now direct the Jr. Sailing Program.

We enjoy boating around Hampton Roads and lower Chesapeake Bay on our boat, "Sun Kissed". Ann and I play golf and I still hit tennis balls every week. Occasional trips round out our activities.

By far, the most important thing in my life is a very successful and happy marriage to Ann. We've been married for over 47 years, having met at CGC MENDOTA's open house during the Azalea Festival.

Our children include Bruce, Joy and Scott who have given us 6 wonderful grandsons. We finally got another girl, a great granddaughter born in 1999. Life is good!
